Adobe Flash Builder and Flex 4.5: New Features Workshop

Learn About New Coding Features, Components, and Mobile Workflows
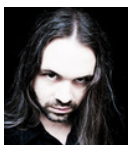

Duration:	1 hr 50 min
Price:	$29.99
Available as:	On-Demand Training (Online + Download)

In this workshop, top Flash expert Joseph Labrecque is your guide to Flash Builder 4.5. After a quick introduction to Flash Builder for those who may be unfamiliar, he covers the many new features in the latest version, including new coding features and Spark components. The course includes a chapter on mobile development where you'll learn how to create a variety of mobile project types and how to effectively simulate iOS, Android, and Tablet OS devices before packaging and signing an application for mobile distribution. Finally, you'll learn about Flash Builder´s integration with other Flash tools, including how to perform round-trip authoring between Flash Catalyst and Flash Builder and how to author a Flash Professional project in Flash Builder.
